CHINABASE

About Us

Chinabase Co., Ltd. is a leading supplier of industrial electronic components and cable assemblies. We conglomerate 5 factories integrating manufacturing and design engineering, sub-contract manufacturing and sourcing capabilities with supply chain management.

Established in 1997, Chinabase has offices in Hong Kong and Nanjing of China, and factories in Hangzhou, Nanjing, and Zhangjiagang of China. Our capabilities include plastic injection molding, raw cable manufacturing, printed circuit board assembly, custom manufacturing and custom packaging.

We combine resources and boast employees of over 1000 people and 50,000 square meters of production facility.

Our manufacturing experts are good at producing audio, video, antenna, telephone and network cable assemblies, CATV/SAT products, coaxial cables and varieties of connectors and accessories.

Our ODM Division specializes in printed circuit board assemblies. We can manufacture sub-assemblies through completed production with finished packaging to give our customers the competitive edge in the global market.

Chinabase has adopted an environmentally-friendly policy, adhering to the global protocols of RoHS and WEEE.

Our factory follows ISO9002 quality system standard.

We provide low cost products and supply chain solutions while focusing on time management for the benefit of our customers.
